

HEALTH OCCUPATIONS

Programs

- Dental Assistant, Associate in Applied Science Degree (<https://catalog.nmc.edu/archives/2021-2022/programs-az/health-occupations/dental-assistant/>)
- Dental Assistant, Certificate of Achievement (Level II) (<https://catalog.nmc.edu/archives/2021-2022/programs-az/health-occupations/dental-assistant-level-ii/>)
- Nursing - ADN Completion Option (<https://catalog.nmc.edu/archives/2021-2022/programs-az/health-occupations/nursing-adn-completion-option/>)
- Nursing - Practical, Certificate of Achievement (<https://catalog.nmc.edu/archives/2021-2022/programs-az/health-occupations/nursing-practical-certificate/>)
- Nursing, Associate Degree in Nursing (<https://catalog.nmc.edu/archives/2021-2022/programs-az/health-occupations/nursing/>)
- Paramedic, Associate in Applied Science Degree (<https://catalog.nmc.edu/archives/2021-2022/programs-az/health-occupations/paramedic/>)
- Respiratory Therapy - RT, Associate in Applied Science Degree (<https://catalog.nmc.edu/archives/2021-2022/programs-az/health-occupations/respiratory-therapy-rt/>)
- Surgical Technology, Associate in Applied Science Degree (<https://catalog.nmc.edu/archives/2021-2022/programs-az/health-occupations/surgical-technology/>)

Courses

Allied Health

The following courses are appropriate for students in pre-professional medical studies in many health careers, and for those health professionals who wish professional continuing education course work. The content of these courses provides a broad background and can be a useful tool in the medical field. Students who wish credits from these courses transferred to other college or university health programs should consult with a NMC counselor to facilitate the process. Admission to a NMC Health Occupations program is not required to enroll in most of these elective courses.

HAH 100C - Informatics Essentials

Credit Hours: 1, Contact Hours: 1

Division: Health Occupations

This course will introduce students to informatics in health care and, in particular, nursing. Students will enhance their ability to use modern informatics such as computer and Internet resources as well as Electronic Medical Record (EMR) software, in the health care environment. This course will be offered in a hybrid online and face-to-face format. Group 2 course.

Required Prerequisite(s): Admission to ADN, PN, or LPN Completion nursing programs

Recommended Prerequisite(s): HNR 102 may be taken concurrently

HAH 101 - Medical Terminology

Credit Hours: 3, Contact Hours: 3

Division: Health Occupations

The student will learn the basic construction of medical words through the use of medical prefixes, suffixes, combining vowels and root words. This foundation will facilitate the understanding of new medical vocabulary encountered in other course work or work situations. Group 2 course.

HAH 120 - Infection Control

Credit Hours: 2, Contact Hours: 2

Division: Health Occupations

This course details the structure of infectious organisms and mechanisms of disease transmission, including host defenses against disease and specific diseases of concern to dental and medical personnel. In addition, the course provides an overview of MIOSHA (Michigan Occupational Safety and Health Administration) regulations and occupational safety measures as they relate to the dental and medical fields. Group 2 course.

HAH 200 - Emergency Assess. & Interventio

Credit Hours: 3, Contact Hours: 4

Division: Health Occupations

A comprehensive study of the concepts and practices of first aid techniques. The course provides training for emergency care through assessment, critical thinking, implementation, documentation, and evaluation. It also addresses situations when injury or sudden illness becomes a threat to life, or problems develop that endanger physical or psychological well-being. Certification for CPR for the Professional Rescuer and a certificate of completion for the Emergency Medical Responder course will be obtained by students following successful completion of the course. This is a standalone course and students that successfully complete the course will not be eligible to test with the State of Michigan or NREMT for certification at this time.

Dental Assistant

HDA 101 - Introduction to Dentistry

Credit Hours: 2, Contact Hours: 2

Division: Health Occupations

Students are introduced to the role of the dental assistant and the dental team and opportunities for employment. Students will be informed of the requirements for certification and registration and the various organizations and associations within dentistry and dental assisting. Other areas studied will include dental specialties, dental terminology, applied psychology in the dental office, office preparedness to manage medical and dental emergencies, instrument and equipment identification and charting. The student will have an opportunity to view a dental office to see the set up and to observe the roles of each person on the dental team. Group 2 course. Communications - Direct.

HDA 112 - Dental Materials

Credit Hours: 2, Contact Hours: 2

Division: Health Occupations

Students learn the preparation, manipulation, and use of dental materials commonly found in the dental office. There will be discussion regarding the equipment needed, mixing techniques, and proper usage of waxes, restorative materials, impression materials, gypsum products, cements, metals and therapeutic materials. Preparation of each material will be demonstrated. Group 2 course.

Recommended Prerequisite(s): HAH 120, HDA 120

Corequisites: HDA 113

HDA 113 - Dental Materials Lab**Credit Hours: 1, Contact Hours: 2**

Division: Health Occupations

This course familiarizes the student with the handling of dental materials commonly used in the dental office. Opportunities are provided in the laboratory to develop skills in mixing techniques, impression taking, construction of study models, bleach and acrylic trays, and cleaning and polishing appliances. Group 2 course.

Corequisites: HDA 112

HDA 120 - Dental Anatomy**Credit Hours: 3, Contact Hours: 3**

Division: Health Occupations

The student will learn the anatomy and physiology of the oral cavity, teeth and head. Students will learn the histology of the teeth and surrounding structures, the bones of the skull, the nerves and blood supply of the head and neck, the muscles of mastication, and the names and functions of the teeth and oral structures. This class will also provide detailed information on the anatomy of the individual teeth. Group 2 course.

HDA 140 - Oral Pathology/Pharmacology**Credit Hours: 2, Contact Hours: 2**

Division: Health Occupations

The purpose of this course is to familiarize the student with disease processes related to the oral cavity and to enable the student to identify these diseases. The student will become familiar with various drugs and their uses in dentistry, prescription writing and documentation, the sources of drugs, routes of administration, and the conditions that modify the reactions of drugs. Group 2 course.

Recommended Prerequisite(s): HDA 120

HDA 150 - Dental Office Management**Credit Hours: 2, Contact Hours: 2**

Division: Health Occupations

Students are acquainted with the procedures necessary for efficient dental office management. Topics include appointment book control, accounts receivable and payable, payroll, dental record keeping, third party payment, patient recall, inventory control, telephone techniques, and use of computer hardware and software unique to the dental office. This course is offered in a self-paced format. Group 2 course.

HDA 160 - Dental Emergencies**Credit Hours: 1, Contact Hours: 1**

Division: Health Occupations

This course acquaints the student with the types of emergencies that may arise in the dental office. The students will learn the procedures to follow when medical and dental emergencies occur, the importance and significance of obtaining accurate and complete patient histories, the proper emergency equipment necessary in a dental office to manage these emergencies and the maintenance of that equipment, and the taking and recording of vital signs. Group 2 course.

HDA 170 - Preventive Dentistry**Credit Hours: 2, Contact Hours: 2**

Division: Health Occupations

This course deals with educating dental patients in proper oral hygiene and nutrition. The topics of discussion will include vitamins, minerals, fats, carbohydrates, proteins, food groups, fluoride treatments, oral examinations, pit and fissure sealants, public health dentistry, and oral hygiene instructions. Student demonstration and participation is emphasized. A dietary analysis will be learned and demonstrated by students. Two community presentations will be designed and presented by each student. Group 2 course. Communications - Direct.

HDA 240 - Chairside Procedures**Credit Hours: 5, Contact Hours: 5**

Division: Health Occupations

This course provides the foundation for dental assistant clinical procedures performed in both general and specialty dental offices. Topics include theory and application of four-handed dentistry; application of infection control procedures; an overview of procedures and techniques unique to dental specialties; and background information and technical skills performed by the Registered Dental Assistant. In addition, local dental specialists serve as guest speakers. Group 2 course.

Recommended Prerequisite(s): HAH 120, HDA 101, HDA 120, HDA 160, HDA 242, HDA 243

Corequisites: HDA 241

HDA 241 - Chairside Procedures Lab**Credit Hours: 2, Contact Hours: 5**

Division: Health Occupations

This is the clinical component of Chairside Procedures. Students learn and practice operative and specialty chairside techniques in a fully equipped dental clinic. Students assist our staff dentist during simulated dental procedures. Expanded duties for dental assistants are also introduced in this course. Group 2 course.

Corequisites: HDA 240

HDA 242 - Dental Radiography**Credit Hours: 2, Contact Hours: 2**

Division: Health Occupations

The fundamentals of radiology as applied to dentistry will be presented. Special consideration will be given to radiation physics, hazards, biological effects, protection and quality control methods. Basic interpretation and radiographic anatomy will also be included. While extraoral techniques are discussed, emphasis will be given to the proper techniques for exposing, processing, and mounting traditional and digital intraoral radiographs of diagnostic quality. Group 2 course.

Recommended Prerequisite(s): HAH 120, HDA 120, HDA 160

Corequisites: HDA 243

HDA 243 - Dental Radiography Lab**Credit Hours: 1.5, Contact Hours: 3**

Division: Health Occupations

Clinical component of Dental Radiography lecture. Students will be introduced to a variety of radiography techniques and will learn how to expose, process and mount radiographs of diagnostic quality. Requirements include multiple sets on dental manikins and four FMX sets on dental patients utilizing digital and traditional techniques. Group 2 course.

Corequisites: HDA 242

HDA 282 - CDA/RDA Written Exam Prep**Credit Hours: 2, Contact Hours: 2**

Division: Health Occupations

The purpose of this course is to prepare students and working dental assistants for the CDA and RDA written exams. Included are review sessions covering General Chairside, Infection Control, and Radiography for both exams and additional specific topics that relate directly to Michigan's expanded functions for dental assistants. Group 2 course.

Recommended Prerequisite(s): HAH 120, HDA 101, HDA 112, HDA 113, HDA 120, HDA 140, HDA 150, HDA 160, HDA 242, HDA 243

HDA 286 - RDA Clinical Exam Prep**Credit Hours: 1, Contact Hours: 1**

Division: Health Occupations

This course will provide dental assistant students with study/application sessions for the clinical portion of the state licensure exam. Expanded functions of special interest are dental amalgams, temporary crowns, and dental dams. Must be a current dental assisting student or graduate of a post-secondary dental assisting program approved by the State Board of Dentistry. Group 2 course.

Required Prerequisite(s): HDA 282

HDA 290 - Dental Assistant Internship**Credit Hours: 5, Contact Hours: 5**

Division: Health Occupations

Students are assigned to dental offices in the community. 300 hours of hands-on experience includes chairside assisting in general offices, office management, laboratory techniques and expanded functions. A minimum of 200 hours must be completed in a general practice and the additional 100 hours can be in a specialty practice. Each student must also observe for four hours in each of the following: endodontics, oral surgery, orthodontics and periodontics. This course includes 6 hours of internship meetings with the instructor and classmates. During the internship experience, students must show progression from "O" (observed) to "W" (with assistance) to "A" (assisted alone) on their journal entries. Group 2 course. Communications - Direct.

Required Prerequisite(s): HDA 240, HDA 241

Corequisites: HDA 286

Nursing

HNR 101 - Fundamentals of Nursing-Lectur**Credit Hours: 4, Contact Hours: 4**

Division: Health Occupations

The students learn the foundation for professional nursing practice. Emphasis is placed on the principles and skills needed to apply the clinical judgment required for safe patient-centered care. Communication is emphasized as an essential aspect of the professional role. Group 2 course.

Required Prerequisite(s): Admission to the nursing program; BIO 228 with a grade of 2.5 or higher, may be taken concurrently

Corequisites: HNR 102, HNR 106

HNR 102 - Fund of Nursing-Clinical**Credit Hours: 4, Contact Hours: 12**

Division: Health Occupations

Through laboratory and/or clinical experience students learn about the professional identity of the nurse while acquiring and applying basic nursing knowledge, judgment, and skills in order to provide safe patient-centered care. Group 2 course. Critical Thinking - Direct, Quantitative Reasoning.

Required Prerequisite(s): Admission to the nursing program; BIO 228 with a grade of 2.5 or higher, may be taken concurrently

Corequisites: HAH 100C, HNR 101, HNR 106

HNR 106 - Pharmacology I**Credit Hours: 1, Contact Hours: 1**

Division: Health Occupations

Students learn an overview of pharmacology with emphasis on clinical applications within the context of the nursing process. The course explores pharmacological principles, including indications, modes of action, side effects, contraindications and medical calculations for the safe administration of medications. Specific nursing judgment and collaborative responsibilities for drug administration are emphasized. Legal statutes and standards regulating drug administration within the scope of nursing professional identity are presented. Individualized patient variables across the lifespan will also be a focus of study. Group 2 course. Quantitative Reasoning.

Required Prerequisite(s): Admission to the nursing program, BIO 228 with a grade of 2.5 or higher, may be taken concurrently

Corequisites: HNR 101, HNR 102

HNR 107 - Pharmacology II**Credit Hours: 2, Contact Hours: 2**

Division: Health Occupations

Students learn an overview of pharmacology with emphasis on clinical applications within the context of the nursing process. The course is organized by medication classification. It explores indications, modes of action, side effects, contraindications and interactions for the safe administration of select drugs. Specific individualized patient care, nursing judgment, and collaborative responsibilities to drug administration are emphasized. Group 2 course.

Required Prerequisite(s): HAH 100C, HNR 101, and HNR 106 with a grade of 2.5 or higher; HNR 102 with an S

Corequisites: HNR 125, HNR 126

HNR 125 - Lifespan Nursing Lecture**Credit Hours: 5, Contact Hours: 5**

Division: Health Occupations

Presentation of nursing management of health care issues related to uncomplicated pregnancy, birth, and neonatal period. Introduction of nursing management of common health alterations found in both chronically and acutely ill clients across the lifespan. Emphasis will be made on utilizing evidence-based practice to identify appropriate nursing interventions to achieve the desired outcome for the client based on their developmental level across the lifespan. Group 2 course.

Required Prerequisite(s): BIO 228, HAH 100C, HNR 101, and HNR 106 with a grade of 2.5 or higher; HNR 102 with an S

Corequisites: HNR 107, HNR 126

HNR 126 - Lifespan Nursing-Clinical**Credit Hours: 5, Contact Hours: 15**

Division: Health Occupations

Clinical experiences providing opportunities to apply principles studied in HNR 125. Clinical learning environments will include the opportunity to apply medical-surgical, pediatric, and obstetric nursing interventions in a variety of settings, including acute care and simulation experiences. Group 2 course. Quantitative Reasoning.

Required Prerequisite(s): BIO 228, HAH 100C, HNR 101 HNR 106 with a grade of 2.5 or higher; HNR 102 with an S

Corequisites: HNR 107, HNR 125

HNR 145 - Practical Nursing Roles & Issu**Credit Hours: 1, Contact Hours: 1**

Division: Health Occupations

Reviews ethical/legal responsibilities of the LPN. Presents issues and trends related to LPN practice, nursing organizations, continuing education; and licensure. Discusses occupational opportunities and provides information on employment search, job-seeking skills and transition issues. Group 2 course. Critical Thinking - Direct.

Required Prerequisite(s): HNR 125 with a grade of 2.5 or higher, and HNR 126 with an S, may be taken concurrently

HNR 221 - Acute Care Nursing I**Credit Hours: 1.5, Contact Hours: 1.5**

Division: Health Occupations

Presentation of nursing interventions and concepts required for adult patients with complex medical-surgical disorders. Emphasizes advanced assessment, analysis, nursing judgment, and nursing accountability. The focus is on adult patients with multiple complex requirements. Geriatric considerations are presented and integrated throughout. Group 2 course. Required Prerequisite(s): HNR 251 with 2.5 or higher, HNR 252 with an S

Corequisites: HNR 241, HNR 242

HNR 222 - Acute Care Nursing II**Credit Hours: 1.5, Contact Hours: 1.5**

Division: Health Occupations

A continuation of presentation of nursing interventions and concepts required for adult patients with complex medical-surgical disorders. Emphasizes advanced assessment, analysis, nursing judgment, and nursing accountability. The focus is on adult patients with multiple complex requirements. Geriatric considerations are presented and integrated throughout. Group 2 course.

Required Prerequisite(s): HNR 221 and HNR 241 with a grade of 2.5 or higher, HNR 242 with an S

Corequisites: HNR 248, HNR 261

HNR 241 - Adv Maternal Child Nursing-Lec**Credit Hours: 3, Contact Hours: 3**

Division: Health Occupations

This course provides information on complex problems facing families coping with complications during the childbearing/childrearing process, including an identification of at-risk families. These concepts will be applied to review of complications occurring during childhood and the prenatal, intrapartum and postpartum periods. Group 2 course.

Required Prerequisite(s): HNR 251 with a grade of 2.5 or higher and HNR 252 with an S

Corequisites: HNR 221, HNR 242

HNR 242 - Adv Maternal Child Nursing-Cli**Credit Hours: 2, Contact Hours: 6**

Division: Health Occupations

This course provides for the clinical application of the principles presented in the co requisite: HNR 241. Maternity clinical time will occur in an inpatient unit and pediatric clinical time will be in an acute or community pediatric setting observing and caring for pediatric patients. Students will complete a detailed family assessment, be involved in clinical simulations, and participate in these experiences by observing and/or directly providing care to at-risk families coping with childbearing and/or childrearing stressors/issues. Group 2 course. Communications - Direct, Quantitative Reasoning.

Required Prerequisite(s): HNR 251 with a grade of 2.5 or higher and HNR 252 with an S

Corequisites: HNR 221, HNR 241

HNR 248 - Acute Care Nursing - Clinical**Credit Hours: 4, Contact Hours: 12**

Division: Health Occupations

Clinical experience providing opportunities to apply principles presented in HNR 221 and HNR 222. Emphasis is upon refinement of organization, decision-making, critical thinking, and priority-setting skills in the care of multiple clients with complex medical-surgical disorders. Group 2 course. Communications - Direct, Quantitative Reasoning.

Required Prerequisite(s): HNR 221, HNR 241 with a grade of 2.5 or higher, and HNR 242 with an S

Corequisites: HNR 222, HNR 261

HNR 251 - Mental Health Nursing - Lec**Credit Hours: 2, Contact Hours: 2**

Division: Health Occupations

This course is designed to enable the student to better understand behavior exhibited by persons with mental disorders. Classifications, causes, and symptoms of mental diseases are presented and treatments such as individual, group, and activity therapies are explored. Emphasis is placed on the ways by which the nurse determines, develops, implements, and evaluates a therapeutic environment for the client. The implementing of theories of human behavior is the scientific aspect of mental health- psychiatric nursing; the purposeful use of the self in the performance of care is the artful aspect. The goal is preventative and corrective impact upon mental illness and the restoration of optimal mental health for individuals. Group 2 course.

Required Prerequisite(s): HNR 125 and HNR 107 with a grade of 2.5 or higher; HNR 126 with a grade of S

Corequisites: HNR 252

HNR 252 - Mental Health Nursing-Clinical**Credit Hours: 1, Contact Hours: 3**

Division: Health Occupations

Clinical experience providing opportunities to apply principles presented in HNR 251. A variety of clinical settings addressing mental health issues in acute care, long-term care, and in community agencies are utilized. Emphasis is placed upon the exercise of critical thinking in addressing mental health issues and concerns. Additionally, students identify and analyze community resources of use to persons with mental health issues. Group 2 course. Communications - Direct, Quantitative Reasoning.

Required Prerequisite(s): HNR 125 and HNR 107 with a grade of 2.5 or higher; HNR 126 with a grade of S

Corequisites: HNR 251

HNR 261 - Nursing Management**Credit Hours: 3, Contact Hours: 3**

Division: Health Occupations

Introduces principles of leadership and management as these relate to providing nursing care to a group of patients. The principles of delegation, communication, and priority-setting are reviewed and a variety of nursing management challenges are discussed, including team building, managing change, conflict resolution, power and authority, political action, economic aspects of health care, legal/ethical issues, and emergency preparedness. Job-seeking skills, NCLEX-RN preparation, and issues related to role transition are discussed. Group 2 course.

Required Prerequisite(s): HNR 221 and HNR 241 with a grade of 2.5 or higher; HNR 242 with S

Corequisites: HNR 222, HNR 248, HNR 262

HNR 262 - Nursing Management Clinical**Credit Hours: 4, Contact Hours: 12**

Division: Health Occupations

Clinical experience providing opportunities to apply principles presented in HNR 261. Emphasis is placed upon organizational skills, time management, critical thinking, and the exercise of clinical judgment in managing the care for a normal RN caseload of patients. Students perform nursing care in the clinical area 24 hours per week for eight weeks with the goal of promoting a successful role transition from student to entry-level professional nurse. Group 2 course. Quantitative Reasoning.

Required Prerequisite(s): HNR 222 with a grade of 2.5 or higher; HNR 248 with S

Corequisites: HNR 261

Health Professional Development

HPD 110 - BLS for Health Care Providers**Credit Hours: 0.2, Contact Hours: 0.2**

Division: Health Occupations

Provides basic life support training, certification, and re-certification for students in the healthcare field who will need these skills in clinical practice. Students will take an online class through the American Heart Association (AHA), complete the post test, and print the certificate. Once the post test is successfully completed, students will sign up for a lab time to complete a practical exam to demonstrate the skills they learned. The certificate will be required to take the practical exam. Group 2 course.

Required Prerequisite(s): Admission to the ADN or PN programs or the Dental Assisting program, or by instructor permission

Surgical Technology

SRG 101 - Intro to Surgical Technology**Credit Hours: 3, Contact Hours: 3**

Division: Health Occupations

In this course students will learn the primary functions of the surgical technologist in multiple roles within the operating room environment. Points of focus will include effective communication, professional interactions with the patient and surgical team, proper personal protective equipment, introduction to asepsis, safety precautions, All-Hazard preparation, instrumentation, equipment, supplies, stapling devices, suture, and infection control and wound healing. Group 2 course.

Required Prerequisite(s): BIO 227, BIO 227L, HAH 101, HPD 110 or equivalent; SRG 102 and SRG 103 may be taken concurrently

Recommended Prerequisite(s): BIO 228

Corequisites: SRG 101L

SRG 101L - Intro to Surg Tech Lab**Credit Hours: 2, Contact Hours: 4**

Division: Health Occupations

In this course students will learn and practice in the laboratory environment the skills required to perform in the surgical setting. Emphasis will be placed on introductory skills, instrumentation, equipment and procedures relevant to general, gynecological, and genitourinary procedures. Students will be evaluated on their sterile and aseptic technique as well as case management skills. Group 2 course.

Corequisites: SRG 101

SRG 102 - Surgical Microbiology**Credit Hours: 1.5, Contact Hours: 1.5**

Division: Health Occupations

Students in this course will learn about the cell, cell organelles and processes, and transport. This course will also cover varying types of organisms that cause infection, the infection process, and microbe identification. The body's natural defense system as well as common bacteria, viruses, and fungi that cause disease will be covered including the response. Group 2 course. Critical Thinking - Direct.

Required Prerequisite(s): SRG 101, SRG 101L, and SRG 103 may be taken concurrently

SRG 103 - Surgical Pharmacology**Credit Hours: 1.5, Contact Hours: 1.5**

Division: Health Occupations

In this course students will learn the pharmaceuticals used in surgical practice to include their actions, use, effects, contraindications and administration. The anesthesia process will be covered in defining the stages of general anesthesia as well as the different types of agents used. The course will cover the equipment, safe practices, sterile technique and terminology used in relation to pharmacology. Students will also cover practices relating to alternative therapies such as herbal medication, acupuncture, massage, and music therapy and their effect on the surgical patient. Group 2 course. Critical Thinking - Direct.

Required Prerequisite(s): SRG 101, SRG 101L, and SRG 102 may be taken concurrently

SRG 121 - Surgical Procedures I**Credit Hours: 4, Contact Hours: 4**

Division: Health Occupations

Students in this course will study the relevant surgical anatomy and physiology, pathophysiology, supplies, equipment, and instrumentation needed for a variety of procedures in the areas of general, obstetrics and gynecological, genitourinary, and orthopedic surgery. Group 2 course.

Required Prerequisite(s): SRG 101, SRG 101L, SRG 102, SRG 103;

SRG 122 and SRG 123 may be taken concurrently

Corequisites: SRG 121L

SRG 121L - Surgical Procedures I Lab**Credit Hours: 3.5, Contact Hours: 7**

Division: Health Occupations

Students in this course will learn and practice in the laboratory environment the skills required to perform in the surgical setting.

Emphasis will be placed on advanced skills concerning instrumentation, equipment and procedures relevant to orthopedic, ENT, plastic, reconstructive, minimally invasive, and vascular procedures. Students will also practice patient transport, transfer, urinary catheterization, skin prep, patient positioning and draping procedures. Students will be evaluated on their sterile technique and case management skills. This course will also include a clinical observation component of the relevant areas of the perioperative environment. Group 2 course.

Corequisites: SRG 121

SRG 122 - The Surgical Patient**Credit Hours: 0.5, Contact Hours: 0.5**

Division: Health Occupations

In this course students will define patient-centered care to determine the differing needs of the various patient populations that visit the surgical department. Important areas that will be described include appropriate communication, cultural and spiritual competence, and grief advocacy.

This course will cover the aspects of the death in the operating room along with the organ transplant process. Students will also cover patient transport, transfer, urinary catheterization, skin prep, patient positioning and draping procedures. Group 2 course. Critical Thinking - Direct.

Required Prerequisite(s): SRG 121, SRG 121L, SRG 123-may be taken concurrently

SRG 123 - Biomed Sciences and MIS**Credit Hours: 1.5, Contact Hours: 1.5**

Division: Health Occupations

Students in this course are introduced to the basic concepts of physics to include the elements of motion, energy, light, sound and electricity and how they apply to surgical practice. Further study will include aspects of minimally invasive surgery including laparoscopy and robotic surgery. Students will also be introduced to the cases performed in interventional radiology and how they are integrated within surgical practice. The course will conclude with the study of diagnostic interventions integral in surgical practice as well as diagnosing pathologies preoperatively. Group 2 course.

Required Prerequisite(s): SRG 121, SRG 121L, SRG 122 may be taken concurrently

SRG 201 - Surgical Procedures II**Credit Hours: 3, Contact Hours: 3**

Division: Health Occupations

Students will study the relevant surgical anatomy and physiology, pathophysiology, supplies, equipment, and instrumentation needed for a variety of procedures. Surgical procedures covered will include the areas of otorhinolaryngology, neurology, and ophthalmic surgery. Group 2 course.

Required Prerequisite(s): SRG 121, SRG 121L SRG 122, SRG 123; SRG 202 and SRG 204 may be taken concurrently

SRG 202 - Surg Procedures II Clinical**Credit Hours: 5, Contact Hours: 15**

Division: Health Occupations

In this course students will be in the clinical environment practicing to and performing essential skills required in the perioperative environment. While under the supervision of a surgical technologist or RN the student will observe, scrub, and assist on procedures as directed by the surgical team. Group 2 course. Critical Thinking - Direct.

Required Prerequisite(s): SRG 201 and SRG 204 may be taken concurrently

SRG 204 - Professional Career Prep I**Credit Hours: 0.5, Contact Hours: 0.5**

Division: Health Occupations

In this course students will work with the Office of Career Services to complete a career portfolio and employment training. Major topics in this course include resume creation both written and online portfolios, interview preparation, job search strategies, and professional attire.

Group 2 course. Communications - Direct.

Required Prerequisite(s): SRG 201 and SRG 202 may be taken concurrently

SRG 221 - Surgical Procedures III**Credit Hours: 3, Contact Hours: 3**

Division: Health Occupations

Students in this course will study the relevant surgical anatomy and physiology, factors unique to surgical procedures, pathophysiology, supplies, equipment, and instrumentation needed for a variety of procedures. Surgical procedures covered include the disciplines of neurology, vascular and cardiothoracic surgical procedure categories.

Group 2 course.

Required Prerequisite(s): SRG 201, SRG 202, SRG 204; SRG 222 and SRG 224 may be taken concurrently

SRG 222 - Surg Procedures III Clinical**Credit Hours: 6, Contact Hours: 18**

Division: Health Occupations

In this course students will continue working in the surgical environment under the direction of a surgical technologist or RN. The student will observe, scrub, and assist on more complex surgical cases as directed by the surgical team. The progression from student to entry level surgical technologist is the goal for the completion of this course along with the successful completion of the 120 scrubbed case requirements. Group 2 course. Critical Thinking - Direct.

Required Prerequisite(s): SRG 221 and SRG 224 may be taken concurrently

SRG 224 - Professional Career Prep II**Credit Hours: 1, Contact Hours: 1**

Division: Health Occupations

In this course the students will focus on exam preparation for the certification exam given by the National Board of Surgical Technology and Surgical Assisting (NBSTSA) that will be taken electronically on campus the last week of the program. Testing strategies and studying techniques will be a large focus point as well as written and online practice exams. Group 2 course.

Required Prerequisite(s): SRG 221 and SRG 222 may be taken concurrently
