

# NURSING, ASSOCIATE DEGREE IN NURSING

NMC Code 302

Northwestern Michigan College's Associate Degree in Nursing (ADN) program consists of two years of nursing classes after prerequisites are met. It is designed to give the student the skills necessary to prepare for employment after graduation. Graduates of the ADN program are eligible to apply for the National Council License Examination (NCLEX-RN) for licensing as a registered nurse. Student clinical experiences may include assignments at Munson Medical Center and a variety of other agencies. The program is approved by the Michigan Board of Nursing and accredited through the Accreditation Commission for Education in Nursing (ACEN).

## Admission Requirements

Admission requirements include the following:

- Completion of the admission process for the pre-Associate Degree Nursing AGS Degree for NMC.
- Transfer students must submit official transcripts to determine eligibility.
- Completion of prerequisite requirements.
- Completion of admission assessment.

ADN students must submit the ADN application. Students may review the Competitive Points Rubric to determine how points are earned. The Competitive Points Rubric, application deadlines, and further details can be found on the NMC website under Nursing – Associate Degree (ADN). Space in the nursing program is limited. Completion of prerequisites does not guarantee admission to the nursing program. Students are granted access to the online competitive ADN application only after all prerequisite requirements are complete and eligibility has been met. It is recommended that students create a plan to complete prerequisite requirements with the Advising Department.

## General Information

- Current CPR certification, a physical examination indicating good mental and physical health, immunization records, criminal background checks and drug screens are required by the start of the program. Nursing students are responsible for the costs associated with these program requirements.
- The Board of Nursing may deny graduates the ability to take the licensure exam for a previous felony conviction, previous treatment for drug or alcohol abuse, or after finding the existence of one or more grounds for board action listed in 333.16221 of the Public Health Code, Act 368 of 1978.
- The clinical facilities used by NMC have the right to accept or reject a student. This action could result in a student being delayed or unable to complete the nursing program. This decision may be made just prior to the clinical rotation.
- Nursing students must adhere to the policies referenced in the Nursing Program Policy Manual associated with their admission semester. If a student is readmitted due to a course failure, they must adhere to the policies referenced in the Nursing Program Policy Manual associated with their readmission semester.

- Nursing program tuition is charged by the contact hour.
- All nursing courses must be completed within five years of taking the first nursing class.

## Online Nursing Option

NMC admits students to an online version of its traditional ADN curriculum each fall semester. The online option provides all of the nursing theory courses in an online format. It requires attendance in person for the lab and clinical courses. The labs and clinical courses are generally scheduled in the Traverse City area and will require 2-3 days per week of attendance.

Once students begin the ADN online option, the college will ensure that the online courses will be available until students complete the program, as long as the model schedule is followed. If students become out of sequence for any reason, they will need to move into the traditional program.

**Note:** The ADN online option is not available to ADN students beginning the program spring semester. It is not available to students pursuing the Practical Nursing certificate or ADN Completion Option.

## Requirements Prerequisite Requirements

Prerequisite requirements include the following:

- 2.5 overall GPA or higher ("Nursing GPA" is calculated by including all NMC courses and transfer courses that count toward the ADN degree).
- ENG 111 English Composition (2.0 grade or higher)
- PSY 101 Introduction to Psychology (2.0 grade or higher)
- BIO 227 Human Anatomy & Physiology I (2.5 grade or higher. Must have been completed within five years of program entry, or successfully complete a competency exam if the class is older than five years.)
- Math Competency: Placement into MTH 121 College Algebra or higher with qualifying test scores or completion of MTH 111 Intermediate Algebra (2.0 grade or higher. Must have been completed within five years of program entry.)

The nursing department enforces a repeat policy that states: Any math and/or science class may only be repeated once. This includes fails, drops, withdrawals or transferred classes (effective June 1, 2012).

## Recommended Courses to Take Prior to Starting the ADN Program

- ENG 112 English Composition
- One Group 1 Humanities course
- BIO 228 Human Anatomy & Physiology II (2.5 grade or higher. Must have been completed within five years of program entry, or successfully complete a competency exam if the class is older than five years.)
