

VCA 146 - INTERACTIVE ANIMATION

- Frame useful questions for developing technical skills.
- Interact constructively during critiques and discussions.

Course Description

This course's focus will be on creation of animation using both traditional methods and Adobe Animate software. Students will learn the basics of animation and storytelling, file management and organization, as well as interactive navigation. Students will also learn how to incorporate sound and video in projects and learn how to prepare their files for use on the Web. Group 2 course.
